W. A. Mozart

“Bona nox! bist a rechta Ox”

Canon in A

KV.561

original piano transcription
[tbpt111]

15 December 2012

DOUJIN EDITION

W. A. Mozart – Canon “Bona nox! bist a rechta Ox” KV.561
piano transcription - travelsbypiano [tbpt111]

(Allegro) (♩ ~ 158 → 168)

1 2 3 4 5

1- 2-

Measures 1-5 of the piano transcription. The treble clef staff contains the melody, and the bass clef staff contains the accompaniment. The key signature is one sharp (F#) and the time signature is 4/4. Measure 1 starts with a quarter rest in the bass and a quarter note in the treble. Measure 2 has a whole rest in the bass and a quarter note in the treble. Measure 3 has a quarter note in the bass and a quarter note in the treble. Measure 4 has a quarter note in the bass and a quarter note in the treble. Measure 5 has a quarter note in the bass and a quarter note in the treble.

6 7 8 9 10

Measures 6-10 of the piano transcription. The treble clef staff contains the melody, and the bass clef staff contains the accompaniment. Measure 6 has a quarter note in the bass and a quarter note in the treble. Measure 7 has a quarter note in the bass and a quarter note in the treble. Measure 8 has a quarter note in the bass and a quarter note in the treble. Measure 9 has a quarter note in the bass and a quarter note in the treble. Measure 10 has a quarter note in the bass and a quarter note in the treble.

11 12 13 14 15

Measures 11-15 of the piano transcription. The treble clef staff contains the melody, and the bass clef staff contains the accompaniment. Measure 11 has a quarter note in the bass and a quarter note in the treble. Measure 12 has a quarter note in the bass and a quarter note in the treble. Measure 13 has a quarter note in the bass and a quarter note in the treble. Measure 14 has a quarter note in the bass and a quarter note in the treble. Measure 15 has a quarter note in the bass and a quarter note in the treble.

16 17 18 19 20

Measures 16-20 of the piano transcription. The treble clef staff contains the melody, and the bass clef staff contains the accompaniment. Measure 16 has a quarter note in the bass and a quarter note in the treble. Measure 17 has a quarter note in the bass and a quarter note in the treble. Measure 18 has a quarter note in the bass and a quarter note in the treble. Measure 19 has a quarter note in the bass and a quarter note in the treble. Measure 20 has a quarter note in the bass and a quarter note in the treble.

21 22 23 24 25

Measures 21-25 of the piano transcription. The treble clef staff contains the melody, and the bass clef staff contains the accompaniment. Measure 21 has a quarter note in the bass and a quarter note in the treble. Measure 22 has a quarter note in the bass and a quarter note in the treble. Measure 23 has a quarter note in the bass and a quarter note in the treble. Measure 24 has a quarter note in the bass and a quarter note in the treble. Measure 25 has a quarter note in the bass and a quarter note in the treble.

W. A. Mozart – Canon “Bona nox! bist a rechta Ox” KV.561
piano transcription - travelsbypiano [tbpt111]

26 27 28 29 30

31 32 33 34 35

36 37 38 39 40

41 42 43 44 45

46 47 48 49 50

W. A. Mozart – Canon “Bona nox! bist a rechta Ox” KV.561
piano transcription - travelsbypiano [tbpt111]

51 52 53 54 55

Musical notation for measures 51-55. The top staff contains chords and rests, while the bottom staff contains a melodic line with eighth and sixteenth notes.

56 57 58 59 60

Musical notation for measures 56-60. The top staff features a melodic line with a crescendo marking and a fermata at the end. The bottom staff contains a bass line with chords and rests. Dynamics include *cresc. ...* and *f*.

How To Read This Score

This score was not produced in the “proper” way, that is with a music typeset program, so it won't **look** as **good** as it could (should?) be. Still, it is **sufficient and correct**, meaning it carries all the necessary information to be read and played as any other, and has been quality-checked to the best of my efforts.

The following notes are a few tips for readers accustomed to beautiful typesetting, to help them cope with the quirks they are more likely to notice, and to make them realize that maybe a score like this is not as deviant as they think after all.

Now, on to the tips.

Staves

Being a piano score, notes run as usual on two staves. Occasionally they may expand to three or even four staves if necessary. However, staves are not visually united by the customary $\{$ sign. There is only more white space to visually separate lines.

Key signature

Alterations (b, #) and clefs are noted with the usual symbols. However they will be noted only at the beginning of the first line without repeating them at the beginning of the following lines. Only when the clef or an alteration **changes**, it will be noted. It's easier to understand if you think of a score that runs on one single line from start to finish, for which you would need a veeeeeeery long (and narrow) page to print out, that is instead clipped in many pieces – of about 4 bars each – and pasted on a customary A4-page.

Bar reset

At every bar change, all alteration changes from the key signature are implicitly reset. $\#$ signs are only noted within the same bar and in the same stave.

Time signatures

They are noted in the usual way. Sometimes the signature is in “alla breve” to improve readability. I usually note metronome indications too, although occasionally in a fancy way. For example for a piece in 6/8 it is customary to note metronome indication with 3/8 as basis. Most of the time I use 1/8 as basis instead: to get your usual base just divide by three (e.g. $1/8 = 180 \rightarrow 3/8 = 60$).

Tempo markings (Allegro, Andante and merry friends)

Noted in the usual way, however I'm a native Italian speaker so I may get creative sometimes... if everything fails just type the mystery word into any translator program online and you're set to go.

Bar numbers

They are always marked. Traditionally if the first bar is almost empty, containing only a few notes as introduction to the second bar which holds the first true upbeat, it is not numbered as bar n. 1 and instead the second bar is considered to be bar 1. Not true here: bar 1 is the bar that carries the very first note, even if it contains only one note in the last interval. Personally I prefer this way of counting and I use it to count the official total number of bars in my pieces.

Volume (p, f, etc.) and accents

Noted in the usual way, in bold italic. When you sometimes see “*rf*”, it stands for “*rinforzando*” and means: play louder (than a moment before). Note that the “how much louder” part is left to the interpreter.

Indications like “*crescendo*”, “*diminuendo*”, “*smorzando*” carry the customary meaning and are generally written like “*cresc.*”, “*dim.*”, “*smorz.*”. Crescendo and Diminuendo are noted in place of their graphical counterparts (you know, those long open fork-like signs)

Legato and Staccato

No slurs are indicated. Traditionally when a passage is not tied by a slur it may be interpreted as a staccato passage. Not true here. Even if a slur is not there, the notes are legato, or at least to be played with their full duration. Staccato notes are noted with half the value, followed by half the pause. I mean for example a staccato 1/8 note will be displayed as a 1/16 note followed by a 1/16 pause. While visually upsetting at first, it is logically correct: when you are playing your notes in staccato you are actually playing them for only half the duration and pausing for the remaining half.

Tails (note grouping)

The “tails” of the notes of duration 1/8 or shorter are usually tied together with one or more thick lines as the number of their tails. The program I use however sometimes groups the notes in a way which doesn’t follow the musical rhythm. For example in a 6/8 bar with 6 1/8 notes these should generally be grouped all together or 3 by 3. Unfortunately you will see them always grouped in 4+2, which is generally OK but only for a 3/4 rhythm.

When this kind of quirk becomes annoying I generally include a footnote to point that out again.

Bottom line: there is no deep meaning behind awkward groupings. Please try to focus on the notes instead of their tails.

Pedals

Noted rarely, and when noted, always consider them “with a grain of salt”. It’s best if you rely on your own sensibility or ask your teachers for practical advice.

Fingering

Ditto, see above.

Right hand, Left hand

Generally the first stave is the right hand and the second stave the left hand (duh!) however keep in mind that the subdivision of notes between the two staves you’ll see is not necessarily the best or the most comfortable to play. I generally choose the one that is easier to **read**, not to play. Sometimes I even leave the messy subdivision I used when composing the piece directly on the score without playing it myself (in some preludes for instance): that’s what I call “composer’s score”. There, some work is definitely necessary to move notes from one stave to another in order to make the whole lot more easily readable and playable. Do not hesitate to find and play your own distribution of notes between the two hands.

Trills, mordents and other embellishments

More likely to appear in my transcriptions, they are generally notated in the usual fashion. There may be a footnote describing trill resolutions and/or point out exceptions.

Zoom icon (on time signature)

“If the same music were written in a bar with this time signature, it would read like this.” This awkward device is used when the midi program on the real time signature shows the notes too close to be readable. You must convert back the notes to the real signature to play them at the correct speed.

Finally...

Try reading the score while listening to the example (digital or human) performances you can find on my YouTube channel or on IMSLP.org. This should clear up any doubt.

Questions and Answers

Q. So what does “DOUJIN EDITION” mean, anyway?

A. “Doujin” is a Japanese abbreviation for “self-published”, literally “the same person”. The O’s are replaced with zeroes to imply this is also a “zero edition” or “edition zero”.

Q. This is all fine and dandy (yeah, right...) but are you ever going to release a better looking score?

A. Most likely... NOT.

Q. Why not?

A. I don’t have the time. Consider that producing these flimsy “zero edition” scores already cost me several hours of sleep / free time and many a fit of rage and/or frustration.

Q. Free time? Isn’t this your main occupation?

A. Not (*shobon...*)

Q. What about getting your scores professionally edited, proofed, printed and bound by a publishing company?

A. That was my closet dream as a young boy...

Q. I have a request.

A. Drop me a line (see links/contact page below)

Q. I want to play your works in public!

A. Go ahead. I’m cool with it ☺ And good luck!

Q. Is it really OK without any fee or something?

A. Well, I’d be delighted to know when and where my works are played and even more to hear them played. So if you can just send me a note and maybe toss in an mp3 of your performance to tag along, you’ll definitely make my day.

Q. Hey, is it me or is this copy-pasta changing from one pdf to the next!?

A. This stuff is turning into a collectible item... by the way this is v3.

Words of Thanks

Thank you for your interest in my modest works.

Thank you for reaching to the scores.

If you bought them or donated, Thank you once again.

If you like this music, please consider archiving these scores
and/or sharing them with family and friends.

Thank you for your Support!..

... and Thank You
to the Great Masters of the Past...
