ENTERED, according to Act of Congress, in the year 1851,

BY A. C. GOODMAN & CO.,

In the Clerk's Office of the District Court of Connecticut.

P R E F A C E.

THE Editor of this work trusts that the following pages will be found generally useful in the service of the church. His aim has been to furnish good music, rather than light, frivolous melody—to restore, as nearly as practicable, the old standard tunes and chants to their original harmonies, while, in the selection of the new, he has endeavored to avoid vulgarity, or straining after effect.

He flatters himself that the large number of chants will be found acceptable, for even where chanting is not practiced, hymns in metre, of four lines in each stanza, may be sung to almost all of the double chants, thus giving nearly one hundred new tunes if required.

He would recommend to those in favor of congregational singing, to use the same words to the same tunes, invariably, and in a short time the association between the words and the music will enable the congregation to sing most of the tunes.

It will be observed that the time marks are omitted throughout the whole work, as the space they usually occupy more than compensates for their loss. Marks of expression are also avoided—the character of the words sufficiently indicating the sentiment of the music to which they are attached.

A SHORT CATECHISM ON THE ELEMENTS OF MUSIC.

PART I.

RHYTHM.

CHAPTER I.

QUESTION. What is a musical sound or tone?

ANSWER. A sound produced by the vibration of any sonorous substance,—
as, a bell, an organ pipe, a string, wire, or reed; or by the human voice, &c.

Q. What distinct properties has every pure musical tone?

A. It may be long or short, high or low, loud or soft.

Q. Into how many departments, then, may the elementary principles be divided?

A. Three.

Q. What is the first?

A. *Rhythm*—treating of the length of tones.

Q. What the second?

A. *Melody*—relating to the pitch of tones.

Q. What the third?

A. *Expression*—determined by the loudness of tones.

CHAPTER II.

Q. Does not the performance of a piece of music occupy a certain portion of time?

A. Yes.

Q. Must that time be divided?

A. Yes, into equal parts, called *Measures*.

Q. By what character are the measures separated

A. By a *Bar*.

Q. Are measures divided?

A. Yes, into parts of measures.

Q. When a measure is divided into two parts, what is it called?

A. *Double Measure*.

Q. How is it accented?

A. On the first part.

Q. Can you illustrate it by an example in words?

A. Ho-ly, | Fa-ther, | Mighty, | Spirit. |

Q. What is a measure of three parts called?

A. *Triple Measure*.

Q. How accented?

A. On the first part,—as, Trinity, | Unity. |

Q. What is a measure of four parts called?

A. *Quadruple Measure*.

- Q. How accented?
- A. Strongly on the first, and slightly on the third,—as, Whensoever, | Powerfully. |
- Q. What is a measure of six parts called?
- A. *Sextuple Measure*.
- Q. How accented?
- A. On the first and fourth parts,—as, Infallibility, | Infinitesimal. |
- Q. How must we mark the parts of measures in order to insure their equality?
- A. By a motion of the hand, usually called *Beating time*.
- Q. What motions or beats has Double time?
- A. Two—Downward beat, and Upward beat.
- Q. What Triple?
- A. Three—Downward beat, Inward beat, and Upward beat.
- Q. What Quadruple?
- A. Four—Downward beat, Inward beat, Outward beat, Upward beat.
- Q. What Sextuple?
- A. Six—Downward beat, Downward beat, Inward beat, Outward beat, Upward beat, Upward beat.

CHAPTER III.

- Q. How are the various lengths of sounds represented?
- A. By differently shaped characters.
- Q. Will you now beat Quadruple time?
- (While the teacher sings *la* to each beat, at a convenient place, say F in the first space in the treble, the pupils count.)
- A. Downward beat, inward beat, outward beat, upward beat.

Q. The sound I have just sung is therefore one beat long. How is it represented?

A. By a character made thus,  called a *Quarter Note*.

Q. I will now sing a note as long as two beats. Will you beat time as before?

A. (Teacher singing *la*.) Downward beat, upward beat.

Q. How is this represented?

A. By a character shaped thus,  called a *Half Note*.

Q. How is a sound as long as three quarters represented?

A. By placing a dot after the half note, thus, . A dot after a note adds one half to its length.

Q. How is a sound as long as four quarters represented?

A. Thus,  called a *Whole Note*.

Q. Are there any other notes in common use?

A. Yes. *Eighth Notes*, made thus,  or tied together, 
Sixteenth Notes, made thus,  or tied together, 

Thirty-second Notes, made thus,  or tied together, 

Q. When three notes are sung to one part of a measure, what are they called?

A. *Triplets*,—and are marked thus,  or 

Q. We are often required in music to beat a part, or parts, of a measure,—or a whole measure, or a number of measures,—in silence. What characters are used to denote this?

A. Certain characters, called *Rests*, which correspond in length to the notes from which they receive their names.

Q. How many are in common use?

A. The *Whole Rest*, made thus . *Half Rest*, . *Quarter Rest*, .
Eighth Rest, . *Sixteenth Rest*, .

CHAPTER IV.

Q. Are there any varieties of measure?

A. Yes.

Q. How obtained?

A. By the use of different notes on each part of the measure.

Q. If the parts of Fourfold measure are quarter notes, what is it called?

A. *Four-four Measure*, and is marked thus, $\frac{4}{4}$ or **C** It is also called *Common Time*.

Q. What do the figures at the commencement of a piece of music indicate?

A. The upper figure shows the number of parts in each measure, the lower indicates the kind of note used to fill each of those parts. Thus $\frac{4}{2}$ means four half notes in each measure. $\frac{3}{4}$ means three quarters in each measure. $\frac{3}{2}$ three halves. $\frac{6}{8}$ six eighths, &c.

Q. What varieties of time are in common use?

A. In Double Measure.

In Triple Measure.

In Sextuple Measure.

Q. Is it necessary that the same kind of notes should be used in each measure?

A. No. Different notes may be used, but the value must not exceed the primitive notes, as,—

or,—

PART II.

MELODY.

CHAPTER V.

Q. Of what does *Melody* treat?

A. Of the pitch of sounds.

Q. What is that series of sounds, called the *Scale*?

A. A succession of eight sounds, which may be represented as follows:

Q. How do we designate the sounds of the scale?

A. By numerals.

Q. How is the scale written!

A. On five horizontal lines, called a *Staff*.

5th line.	4th space.
4th line.	3d space.
3d line.	2d space.
2d line.	1st space.
1st line.	

and on the spaces between those lines.

Q. What is each line and space called?

A. A degree. A staff contains nine degrees,—five lines and four spaces.

Q. If more than nine degrees are wanted, what is used?

A. The spaces above and below the lines, also additional lines, called *Leger*, or *added lines*.

Q. We will place *one* on the first leger line below,—how are the rest placed?

A.

Q. When the scale is thus written, what name do we give *one*?

A. *Do*. (Pronounced Doe.)

Q. What, *two*?

A. *Re*. (Ray.)

Q. What, *three*?

A. *Mi*. (Mee.)

Q. *Four*?

A. *Fa*. (As fa, in father.)

Q. *Five*?

A. *Sol*. (Sole.)

Q. *Six*?

A. *La*. (A, as in father.)

Q. *Seven*?

A. *Si*. (See.)

Q. *Eight*?

A. *Do*, again.

Q. Have they any other names!

A. They are also named from the first seven letters of the alphabet; but, as *one* is placed on the first added line below, we must commence with C.

CHAPTER VI.

Q. What characters are used to determine the names of the degrees of the staff?

A. *Clefs*,—the *Treble*, or *G Clef*,  and the *Bass*, or *F Clef*, 

the Treble Clef fixes G upon the second line of the staff; the Bass Clef fixes F on the fourth line of the staff.

Q. Is then the F on the fourth line on the bass staff only one note below the pitch of the G on the second line of the treble staff?

A. No. It is nine tones lower in pitch,—for example:—

The male voices generally sing in the bass clef, and the female in the treble. The treble clef is also used for the tenor,—the voices singing eight tones, or an octave below the real pitch.

CHAPTER VII.

Q. Is there any term for expressing the distance of one tone to another?

A. The distance or step from one tone in the scale to another is called an *Interval*.

Q. Of what intervals is the scale composed ?

A. Of whole tones and half tones.

Q. In what order?

A. From one to two, and from two to three, are whole tones; from three to four a half tone; from four to five, from five to six, and from six to seven, are whole tones; and from seven to eight a half tone.

Q. When we have learned to sing the scale in regular progression, what should we do next?

A. We should learn to strike each sound separately, or in connection with any other sound.

Q. How ought we to commence?

A. By learning the perfect intervals,—as the third, fifth, and eighth, and determining the imperfect intervals,—as the second, fourth, sixth, and seventh, from them.

Q. How can we fix in our minds the interval of the third?

A. By singing 1, 2, 3,—1, 3,—1, 3,—1, &c.

Q. How the fifth?

A. By singing 1. 2, 3, 4, 5,—1, 5,—1, 5,—1, &c.

Q. How the eighth?

A. Sing 1, 2, 3, 4, 5, 6, 7, 8,—1, 8,—1, 8,—1, &c.

Q. What is the best method to fix these intervals in the memory?

A. Sing in the following order:—

1 3 5 8 3 1 5 8 5 1 3 8 8 1 3 5

1 3 8 5 3 1 8 5 5 1 8 3 8 1 5 3

1 5 3 8 3 5 1 8 5 3 1 8 8 3 1 5

1 5 8 3 3 5 8 1 5 3 8 1 8 3 5 1

1 8 3 5 3 8 1 5 5 8 1 3 8 5 1 3

1 8 5 3 3 8 5 1 5 8 3 1 8 5 3 1

Q. How can we strike seven correctly?

A. Sing one, then think of eight, and sing the next sound of the scale below it. Seven naturally leads to eight.

Q. How can we strike four?

A. Sing 1, then think of 3, and sing the next sound above it. Four naturally falls to three.

Q. How can we strike two?

A. 1 or 3 will serve as a guide to 2; as 5 will to 6.

CHAPTER VIII.

Q. As the human voice is capable of producing sounds higher and lower than the eight sounds of the scale, how can we represent those tones?

A. When we sing above eight, we consider eight as one of a scale above, and when we sing below one, we think of one as eight of a new scale below.

Q. How can we write this?

A. Thus :

Q. Into how many classes is the human voice generally divided?

A. Into four,—*Treble* or *Soprano*, *Alto*, *Tenor*, and *Bass*.

Q. What is the usual compass of each class?

A. The Bass from F to C,  the Tenor from C to G, 
 or  the Alto from G to C,  or  and the Treble
 from C to A, 

CHAPTER IX.

Q. The *Natural* (or *Diatonic*) *Scale* consists of five tones and two semitones. Can the tones be divided?

A. Between any two sounds a tone distant from each other,—as from one to two, another sound may be sung.

Q. What is that scale termed which consists of semitones only?

A. The *Chromatic Scale*.

Q. How are these semitones obtained?

A. Either by elevating the lower, or depressing the upper, of the two sounds.

Q. What is the sign of elevation?

A. A # (*Sharp*) placed before the note.

Q. What is the character used to depress a note?

A. A b (*Flat*) placed before the note intended to be lowered.

Q. What character is usually employed in ascending?

A. The sharp,—thus,

Q. Which is used mostly in descending?

A. The flat,—thus,

Q. How do we name these chromatic tones?

A. In speaking of them by numerals we say, sharp one, sharp two, flat four, &c.; by letters, C sharp, D flat, &c. By syllables, the termination of the syllable appropriated to the natural note is changed,—for the sharps to *i* (pronounced ee,) as, *do, di,—re, ri,—fa, fi,—sol, si,—la, li*. For the flats to *e*. (pronounced as a, in late,) as *si, se,—la, le,—sol, se,—mi, me, &c.*

Q. If a note has been sharpened or flattened, how is it restored?

A. By a ♮ (*Natural*) placed before it.

Q. What are these characters called when they occur in a piece of music?

A. *Accidentals*.

Q. Does an accidental affect a note throughout the whole piece?

A. No,—only throughout the measure in which they occur. A bar destroys their effect.

CHAPTER X.

Q. Is there any other scale besides the Diatonic and Chromatic?

A. Yes,—there is the *Minor Scale*.

Q. How is that formed?

A. From one to two a whole tone, from two to three a half tone, from three to four a whole tone, from four to five a whole tone, from five to six a half tone, from six to seven a whole tone and a half, from seven to eight a semitone:—

CHAPTER XI.

Q. We have hitherto taken C as one of the scale, or as the *key note*. As the scale is then said to be in its natural position: can any other note be taken as the key note, or tonic?

A. Any other note may be taken as one of the scale, from which note the scale derives its name,—as, the scale or key of G, the key of D, &c.

Q. When any other letter than C is taken as the tonic, what is said of the scale?

A. It is transposed.

Q. In transposing a scale, what is of the utmost importance?

A. To preserve the order of the intervals.

Q. If we take G (the fifth of the scale) as the tonic, how can we preserve the order of the intervals?

A. The intervals will be all correct till we come to F, the fourth of the old, and the seventh of the new scale, when, as there must be a whole tone between 6 and 7, and a semitone between 7 and 8, we must make F sharp by placing a # before it.

Q. Is this character to be placed before every F?

A. No. It is placed at the commencement of the Line, and affects all the

Fs in the piece. It is then called the *Signature*. The signature of the key of G is therefore one sharp.

Q. How much higher than the key of C is that of G?

A. A fifth higher, or a fourth lower,—as a fifth above, and a fourth below, is the same thing.

Q. What is the next regular transposition by sharps?

A. The fifth of the scale of G:—D. But as, if we continued the scale upwards, it would take it out of the range of the voice, we will write D on the space below the lines.

Q. What note must we sharp in order to preserve the order of intervals?

A. The fourth of the old scale, C, which becomes the seventh of the new key.

Q. What is the signature of the key of D?

A. Two sharps.

Q. What is the next regular transposition by sharps?

A. A — being the fifth of the key of D.

Q. Is the same rule followed as in the previous transpositions?

A. Yes. The fourth of D is made sharp, and becomes the seventh of A,—the signature of A being three sharps.

Q. What is the next regular transposition by sharps?

A. E—the fifth of the scale of A. And by following the same rule, and sharpening D, (the fourth of the key of A,) which becomes the seventh of the new scale, we make the signature of the key of E to be four sharps.

Q. What keys are the next in order?

A. B:—five sharps. F#:—six sharps. C#:—seven sharps, &c. But as these are seldom used, and follow the same rule, there is no necessity to proceed further.

CHAPTER XII.

Q. We will now take F (the fourth of the natural scale) as the key note. What note must we alter to preserve the proper order of intervals?

A. We must flatten the seventh of the scale of C—which becomes the fourth of the key of F—in order to make the intervals correct: as there must be a semitone between three and four, and a whole tone between four and five.

Q. What will be the signature of the key of F?

A. One flat.

Q. What is the next regular transposition by flats?

A. The fourth of the scale of F, which will be B flat.

Q. How do we transpose the scale into the key of B flat?

A. We must flatten E, the seventh of the key of F, the fourth of the new scale of B flat,—which therefore will have as its signature two flats.

Q. What is the next regular transposition by flats?

A. E flat, the fourth of the key of B flat.

Q. How is the scale transposed into E flat?

A. According to the same rules as before. Flatten the seventh of the old key, which becomes the fourth of the new, and the signature will be three flats.

Q. What are the next keys in succession?

A. Ab:—four flats. Db:—five flats. Cb:—six flats, &c., which all follow the same rules for transposition.

CHAPTER XIII.

Q. The key is frequently changed, (transposed,) during the performance of a piece of music. What is that change called?

A. *Modulation.*

Q. What are the most common modulations?

A. From one to five, and from one to four.

Q. How is the modulation from one to five effected?

A. By sharpening the fourth of the key, which immediately becomes the

seventh of a new key. A sharp seventh is called the leading note, as it leads to eight.

Q. Which is the note of modulation from any key to its fifth?

A. The sharp fourth.

EXAMPLE.

Q. When a modulation occurs, do we make any change?

A. The melodic relations of sounds, and often the syllables applied in solmization, must be changed according to the new key.

Q. How is the modulation from one to four effected?

A. By flatting the seventh of the key, which becomes the fourth of the new key.

Q. What is the note of modulation by fourths?

A. The flat seventh.

EXAMPLE.

Q. The examples have been given in the natural key of C. Are the same rules followed in other keys?

A. The same rule is applied in all the keys.

CHAPTER XIV.

Q. We have hitherto spoken of tones and semitones as intervals. Are there any others?

A. Yes. *Unisons, Seconds, Thirds, Fourths, Fifths, Sixths, Sevenths, Eighths, or Octaves*, besides others, which are now immaterial to our purpose.

Q. What is an unison?

A. The unison, (though not strictly an interval, is treated as such in the theory of music,) is from one to one. In counting intervals, the note from which you begin to count is always reckoned as one.

Q. What is a second?

A. A second is an interval from one letter to the next. If it includes a semitone, it is called a minor second; if a tone, a major second.

Q. What is a third?

A. An interval from one letter to the next but one. If it includes a tone and a semitone, it is called a minor third; if two tones, a major third.

Q. What is a fourth?

A. From any one letter to the next but two. Including two tones and a semitone, it is a perfect fourth; if it includes three tones, a sharp fourth.

Q. What is a fifth?

A. An interval containing two tones and two semitones is a flat fifth; one including three tones and a semitone a perfect fifth.

Q. What is a sixth?

A. An interval of three tones and two semitones is a minor sixth; one of four tones and a semitone a major sixth.

Q. What is a seventh?

A. An interval of four tones and two semitones is a minor, or flat seventh; of five tones and one semitone, a major, or sharp seventh.

Q. What is an octave?

A. All octaves are equal, including five tones and two semitones.

CHAPTER XV.

Q. What are *Passing Notes*?

A. When notes not properly belonging to the harmony are introduced, they are called Passing Notes.

Q. What is an *Appoggiatura*?

A. When a passing note precedes the principal note, it is called an *Appoggiatura*.

EXAMPLE.

Written,—

Sung,—

Q. What is a *Syncope*?

A. When a note commences on an unaccented, and is continued on the accented part of a measure, it is said to be syncopated.

EXAMPLE OF SYNCOPATION.

Q. What is a *Tie*?

A. A Tie — is used to connect two notes together so that they become but one,—as in the above example. It is also used to show how many notes are to be sung to one syllable. It is used also to denote a Legato style of performance.

Q. What is the meaning of *Legato*?

A. When music is to be performed in a smooth, gliding manner, it is marked Legato.

Q. What is *Staccato*?

A. When the notes are to be performed in a short, pointed, detached manner, it is said to be Staccato, and is generally marked thus,—

Q. What is a *Pause*?

A. A Pause ∩ indicates that a note or rest is to be prolonged beyond its usual length.

Q. What is a *Repeat*?

A. Dots across the staff require the repetition of certain parts of the piece.

Q. What is the use of a *Double Bar*?

A. To indicate a division of the phrases of the piece.

Q. What is a *Close*?

A. A Close denotes the termination or end of a piece of music.

EXAMPLES.

PART III.

EXPRESSION.

CHAPTER XVI.

Q. What are the principal means of giving Expression to a piece of music?

A. The *Dynamic* degrees of force, and the appropriate delivery of the words.

Q. How many degrees of force are in common use?

A. Six:—*Pianissimo*, (*pp*) Very Soft; *Piano*, (*p*) Soft; *Mezzo Soprano*, (*mp*) Rather Soft; *Mezzo Forte*, (*mf*) Rather Loud; *Forte*, (*f*) Loud; *Fortissimo*, (*ff*) Very Loud.

Q. What is an "*organ tone*"?

A. A tone commenced, continued, and ended, with an equal degree of force.

Q. What is a *Crescendo*?

A. A tone commencing soft, and increasing in force to the end, is *Crescendo*, and is marked *Cres.*, or .

Q. What is *Diminuendo*?

A. A tone commenced loud, and diminishing to soft. It is marked *Dim.*, or .

Q. What is a *Swell*?

A. A tone partaking of the *Crescendo* and *Diminuendo*. It is designated thus, — .

Q. What is *Sforzando*?

A. A single sound, struck suddenly and with force. It is marked *sf.* or *fz.* or $>$, or $\wedge$.

Q. What is most essential in order to give expression?

A. To study attentively the character of the words; to deliver them with a distinct and clear articulation, duly emphasizing those words which require it; to preserve the vowel sounds in all their purity; to take breath at those places only in which you can pause while reading the words, and avoid equally the extremes of a tame, lifeless delivery, and ranting.

INDEX TO THE HYMNS.

[illegible]

GREATOREX'S COLLECTION OF CHURCH MUSIC.

ST. ANN'S. C. M.

TENOR.

ALTO.

With cheer - ful notes let all the earth To heaven their voi - ces raise; Let all, inspired with god - ly mirth, Sing solemn hymns of praise.

CANTO.

BASS.

ORGAN.

The image shows a musical score for a hymn titled "ST. ANN'S. C. M.". The score is written for five parts: Tenor, Alto, Canto, Bass, and Organ. The Tenor part is on a single staff with a treble clef and a key signature of one sharp (F#). The Alto part is on a single staff with a treble clef and a key signature of one sharp. The Canto part is on a single staff with a treble clef and a key signature of one sharp. The Bass part is on a single staff with a bass clef and a key signature of one sharp. The Organ part is on a single staff with a bass clef and a key signature of one sharp. The lyrics are written below the vocal staves: "With cheer - ful notes let all the earth To heaven their voi - ces raise; Let all, inspired with god - ly mirth, Sing solemn hymns of praise." The organ part consists of a single line of music with a key signature of one sharp and a bass clef.

IRISH. C. M.

O ren - der thanks, and bless the Lord; In - voke his sa - cred name; Ac - quaint the na - tions with his deeds,—His match - less deeds pro - claim.

COMPTON. C. M.

Lord, in thy sight, O let my prayer, Like naun - ing in - cense rise; My lift - ed hands ac - cept - ed be, As evening sac - ri - fice.

ST. MARTIN'S. C. M.

3

The spa - cious ear, h is all the Lord's, The Lord her full - ness is; The world, and they that dwell there - in, By sovereign right are his.

This musical score is for the hymn 'ST. MARTIN'S. C. M.'. It features a vocal melody in the upper staves and a piano accompaniment in the lower staves. The key signature is one sharp (F#), and the time signature is common time (C). The lyrics are written below the vocal staff.

WHITEHOUSE. C. M.

Blest is the man, whose softening heart Feels all an - oth - er's pain; To whom the sup - pli - ca - ting eye Is nev - er raised in vain

This musical score is for the hymn 'WHITEHOUSE. C. M.'. It features a vocal melody in the upper staves and a piano accompaniment in the lower staves. The key signature is one flat (Bb), and the time signature is common time (C). The lyrics are written below the vocal staff.

FARRANT. C. M.

Bless God, ye ser-vants, that at-tend Up-on his soi-enn state, That in his tem-ple's hallowed courts With hum-ble reverence wait.

LAUD. C. M.

Who place on Sion's God their trust, Like Sion's rock shal stan I, Like her im move a-bly be fixe I By his al-migh-ty han I, By his al-migh-ty hand.

The treble notes marked x may be omitted in the accompaniment.

RANDAL. C. M.

To our Re - deem - er's glo - rious name A - wake the sa - cred song! O, may his love (im - mor - tal flame!) Tune ev - ery heart and tongue.

CHESTERFIELD. C. M.

Father, what - e'er of earth - ly Lies Thy sovereign will de - nies, Ac - cept - ed at thy throne, let this, My hum - ble prayer a - rise.

DITCHLING. C. M.

How good and pleasant must it be To thank the Lord most high! And, with re - peat - ed hymns of praise, His name to mag - ni - fy!

This musical score is for the hymn 'DITCHLING. C. M.' It features a four-part setting with a soprano, alto, tenor, and bass line, accompanied by a piano. The key signature has one flat (B-flat), and the time signature is common time (C). The lyrics are: 'How good and pleasant must it be To thank the Lord most high! And, with re - peat - ed hymns of praise, His name to mag - ni - fy!' The piano accompaniment includes chords and single notes, with some measures marked with 'p' for piano.

HORNE. C. M.

Hear, gracious God! my humble moan, To thee I breathe my sighs; When will the mournful night be gone! When shall my joys a - rise!

This musical score is for the hymn 'HORNE. C. M.' It features a four-part setting with a soprano, alto, tenor, and bass line, accompanied by a piano. The key signature has two sharps (F# and C#), and the time signature is common time (C). The lyrics are: 'Hear, gracious God! my humble moan, To thee I breathe my sighs; When will the mournful night be gone! When shall my joys a - rise!' The piano accompaniment includes chords and single notes, with some measures marked with 'p' for piano.

CRUCIFIXION. C. M.

7

Thy chastening wrath, O Lord, re - strain, Though I deserve it all; Nor let 'on me the heavy storm Of thy displeasure fall.

This musical score is for the hymn 'Crucifixion' in Common Time (C. M.). It features a four-part setting with Soprano, Alto, Tenor, and Bass staves. The key signature has one flat (B-flat). The lyrics are: 'Thy chastening wrath, O Lord, re - strain, Though I deserve it all; Nor let 'on me the heavy storm Of thy displeasure fall.'

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the purchase of the land for the purpose of building a new building for the use of the University of Chicago. I am sorry that I am unable to give you a more definite answer at this time, but the matter is being considered by the Board of Trustees and I will be glad to advise you again when a decision has been reached.

Very respectfully,
The President of the University of Chicago
