## KONKRET MEGASTRUKTUR 2

for 216 car coil springs

- 216 players with 216 car coil springs (1 each)

- all springs should sound different

- each spring is horizontally suspended from both ends with two loops of sufficiently strong yet thinnest fishing line

- all springs are played with a metal triangle beater

- each spring sounds only for its respective beat - <u>DO NOT LET RING!</u>

- dynamics = f throughout

- > = PO

- duration = ∼&L seconds
